Welcome back! We hope you all had a great holiday. This term we will be finishing our work on the Grimm Tales, by looking at the story The Bremen Town Musicians. We will then move on to an exciting new topic: The Tudors. We will begin our learning about this important era in British history by visiting the Tower of London.

What will my child be learning this term?

**Maths**

**Decimals**

We will start the term looking at decimal numbers. We will order them using our knowledge of place value; divide one or two digit numbers by 10 and 100, identifying the value of the digits in the answer as ones, tenths, and hundredths; then round decimals with one decimal place to the nearest whole number.

We will then apply this knowledge to practical investigations involving measurement and money.

**Measurement and money**

---

**English**

**The Grimm’s Fairy Tales**

This term we will be continuing to read some of the stories from the Grimm Tales, focussing especially on *The Bremen Town Musicians*.

It tells the story of four animals, who after a lifetime of hard work are mistreated by their former masters. Eventually, they decide to run away and become musicians in the city of Bremen. On the way, they succeed in tricking and scaring off a band of robbers, capturing their spoils and moving into their house.

---

**Topic and Science**

**Watercolours**

While we are reading the story we will be working towards paining a scene, using watercolours, inspired by where the animals may have lived. The children will visit Vauxhall City Farm to help visualise the characters in the story. Then explore the techniques involved when using watercolour paints.

**Tudors**

We will be finishing our science topic on teeth: identifying the different types of teeth in humans and their simple functions.

**Teeth**
